

# HEALTH TEAMS INTERNATIONAL

October-November 2011 Newsletter

Vol. 28 No. 6

*Edited by Gerald L. Roussie, Executive Director*

## HTI MISSION TO HONDURAS

Dr. Richard Charlick, DDS led a team of healthcare workers to Honduras (middle photo). Also pictured is Doctor Charlick with patients, translators, and helpers.

## IN MONGOLIA

Dr. Dan Wiklund of Health Teams International teamed up with Dr. Bill Pratt of the Amigo Foundation to deliver medical and dental care to hundreds of people in Mongolia. Working in Mongolia has been the result of a passion Dr. Bill and his wife Peggy have and has resulted in numerous medical missions for many years.

## YOUR VALUABLE DONATIONS

Replacing time-worn and well-used equipment; replenishing consumable supplies after mission trips; purchasing specialized medicines to address country-specific diseases; creating opportunities for medical and dental students to apply their skills on the mission field; maintaining the daily operations of Health Teams International, and all other expenditures require your continued faithful support. We are in the process of activating a PayPal account for you to make your donations more conveniently and safely. We will notify you in the next newsletter how you can take advantage of this convenience. In the meantime, please continue to send your donations to either of these addresses:

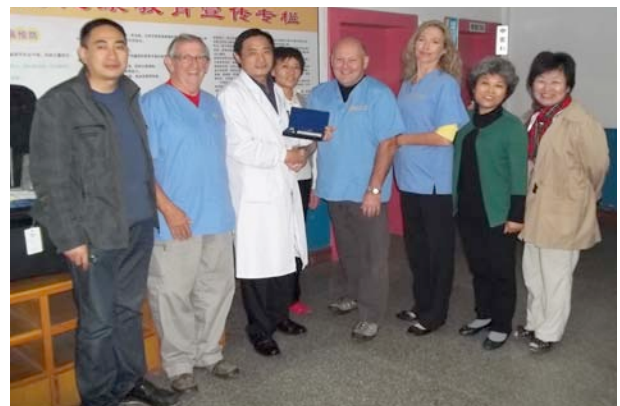

**HEALTH TEAMS INTERNATIONAL (US)**  
2608 W. Kenosha, Ste. 425  
Broken Arrow, OK 74012

**HEALTH TEAMS INTERNATIONAL (CANADA)**  
414-1335 Carling Avenue  
Ottawa, ON K1Z 8N8

**HTI IN CHINA, 2011**

Through the generosity of our donors, we were able to make donations in two areas: The picture in the middle above shows the group of people from a country Bible Study who received their own Bibles. In the picture on the far right is part of our team making a presentation to the administrator of the church-run hospital. In addition to the purchase of 2,000 Bibles for distribution, your contribution also purchased a variety of hospital instruments such as glucose monitors, otoscopes, ophthalmoscope, blood pressure monitors, and a large quantity of medications. Thank you for helping us help them.
